CORPORATION REFERRED TO REGISTRATION

Largest Number Of Students
In History Of McGill.

ADDITIONS TO LIBRARY.

Fitting Tribute Paid To Late
Librarian, Charles H.
Gould.

At a meeting of the Corporation of McGill University held yesterday, Acting Principal Dr. F. D. Adams in the chair, reports were submitted of the attendance to date in the several Faculties as follows:—Arts, including the School of Commerce, 580; Science, 601; Law, 125; Medicine, including Dentistry and Pharmacy, 733; Agriculture, 157; making a total of 2201, which is the largest attendance of students in the history of the University. When the registration is complete in the course of another week this total will be somewhat increased. In addition to the above numbers there are 146 in the School of Household Science. There are also 166 students registered in the Conservatorium of Music. This makes a grand total of 2593 to which must still be added the registration in the Graduate School, which is not yet complete.

In the report from the Board of Governors reference was made to the fact that the School of Physical Education, hitherto run as a separate organization, has been incorporated with the University Department of Physical Education, and a list of recent appointments and promotions was submitted in which, in addition to those of whom public mention has been made

(Continued on Page 2)

HISTORICAL CLUB MET LAST NIGHT

Initial Meeting Held and
Plans Discussed—Dates
Announced.

The executive of the Historical Club met last night at the Hall. The purpose of this meeting was to decide on the dates, number of meetings for the season, and to discuss a programme. It was finally decided to hold meetings on the same night as last year is. Wednesday. During the first term meetings will be held on October 22nd, November 5th, 19th; December 3rd, 17th; and in the second term on January 28th; February 11th, 25th, and March 10th. In accordance with the custom of past years, the last meeting of the session will be held during the latter part of March, and will be in the form of an informal dinner at which some prominent speakers will be present.

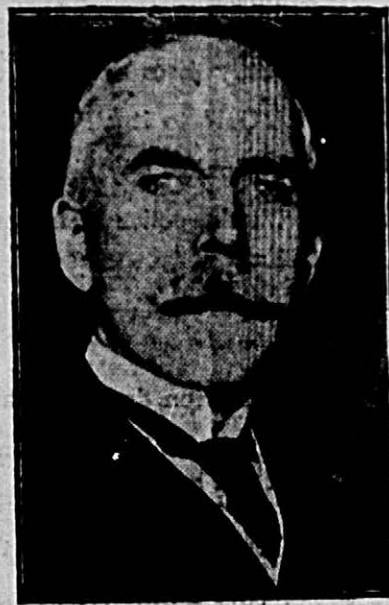

For the benefit of those who are unaware of the objects and purposes of the Club, it might be said they are both educational and social. At each meeting two papers are read by two members of the club and followed by an informal discussion. Refreshments will also be served at the close of each meeting.

According to the constitution, membership is limited to twenty five. As there are a number of the old members back at the University, there are only a few number of vacancies to be filled by new members. Membership is generally reserved for men of the junior and senior years, though in some cases men of the second year are accepted. Those desirous of joining the club should make immediate application to the Secretary, A. W. Stuart, Strathcona Hall.

A definite programme has not as yet been decided upon, but will appear in the course of a few days. The first meeting will be held on Wednesday October 22nd, at Strathcona Hall.

+ IMPORTANT. +
+ A special medical examination period will be held in the East wing of the Arts Building, over the Administration office, on Friday, Oct. 10th, from 8.15 to 9.15 p.m., for students desirous of participating in competitive athletics. All track, swimming, water polo and football candidates not yet medically examined, are expected to be on hand. +

SILVER REPORT

DR. F. D. ADAMS

RUGBY SQUAD HAS WORKOUT AT STADIUM

Juniors Will Play Loyola on
Saturday.

NEW MEN OUT.

Nine Members Of Senior
Squad Are Now On Sick
List.

A good workout was held by the rugby squad yesterday afternoon at the stadium. There was a large turnout, but some difficulty is being experienced by many of the men in getting away from lectures early enough to put in a good practice. As a consequence, the men are not yet at the top of their form, and will need a lot of hard work before getting into good condition.

The men started their workout by doing a lot of punting, so as to get well limbered up. After that they were divided into three teams.

The intermediates and juniors then lined up against each other and engaged in a hard practice game, which uncovered some good rugby on the part of both squads. Flanagan acted as coach.

Considerable improvement in the men's style of playing was noticed as a result of this game. It will undoubtedly prove of great benefit, especially to the juniors, who will play the first of McGill's scheduled games on Saturday morning at 11.30 a.m., when they meet Loyola at the Stadium.

The senior squad occupied most of the workout with signal practice. The men do not yet know their signals satisfactorily, and will have to do some strenuous work if they intend to make a good showing against Ottawa. "Bag" has been giving the members of the training table lectures in the game every evening. He intends to concentrate on only a few plays for the game with Ottawa, as the men are by no means sure of their signals. Nevertheless it is expected that he will be able to uncover some of the trick plays that have made McGill famous in past years in this department of the game.

At present, Shaughnessy is seriously handicapped by many of his men being out of the game through injuries. Hall, Timmins, Wallace, Mallison and Notman are latest to be added to the sick list. In addition, Heney, Gallery, Fitzgerald and Flanagan are still out of the game, and will not be back for some time.

Three new men, Donnelly, Lifshin, and Wieser, turned out to the practice yesterday.

Both Donnelly and Lifshin were tried on the senior team, the former holding down one of the wing positions while the latter played scrum-half. Both men will make useful additions to the squad.

NOTICES

TRACK REPRESENTATIVES

Every class in the University should have already elected their representatives to the Track Club. Those which have not done so should elect one immediately. Class representatives will attend the meeting of the Track Club on Tuesday next.

SOCIAL SERVICE CLUB

There will be an important executive meeting of the Social Service Club on Friday evening at 6.45 p.m. in the Board Room, Strathcona Hall. All members of the executive are requested to be present as the policy for the coming session will be outlined.

FOUND

A pair of gloves, were left in the Registrar's Office during registration. Finder may have same by applying at Registrar's Office.

DR. GRENFELL GAVE ADDRESS AT THE HALL

About 175 Students Were
Present Last Night.

MANY FROM R. V. C.

Interesting Talk On Needs
and Conditions of
Labrador.

About 175 students of McGill and the R.V.C. turned out last night to hear Doctor Grenfell, the noted Labrador missionary-doctor, give an address on his work among the native fishermen of the Newfoundland and Labrador coasts. Previous to the arrival of the speakers of the evening, A. A. Scott entertained those present with piano selections.

Dr. Tees introduced the speaker of the evening with a few well chosen remarks. Dr. Grenfell opened his address with a reference to the few McGill men whom he had met in his work on the Labrador coast. Their work in all fields was very valuable he said.

The work in Labrador in a way resembles the work done by the men in Flanders, in that both lines of effort involve great personal sacrifice for the good of humanity. The fact that the chief aim of human life is service was most forcibly brought home to Dr. Grenfell in a short visit which he was able to pay to the front during the War. In this connection, the speaker wished to impress on his audience that the work done by the fishermen on Labrador during the War could compare favorably with that of many other countries.

Dr. Grenfell went to Labrador before getting into good condition.

(Continued on Page 2)

Y. W. RECEPTION HELD YESTERDAY

Miss Carr Speaks About
University Settlement
Work.

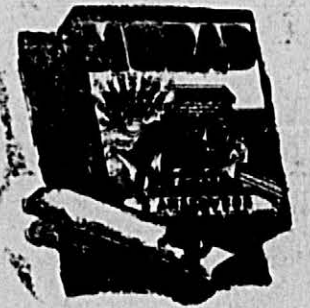

The most successful and largely attended Y.W.C.A. reception was held yesterday in the Common Room at four o'clock. When the guests had assembled, the president, Miss Helen Nichol, opened the meeting with a hearty welcome to all first year students. She regretted that Mrs. Adams, the honorary president, was unable to be present, but the latter sent her best wishes to the first year. Miss Nichol then made a strong appeal to the students, both upperclassmen and freshmen, for their cooperation with the Y.W.C.A. The purpose of the Y.W.C.A. is: "To call the students of Canada to the knowledge of God in Christ Jesus, and His discipleship in every department of conduct. To promote among them regular habits of Bible Study and of prayer. To lead them into the fellowship and service of the Christian Church. To keep before them the importance and urgency of world-wide evangelization, the Christian solution of social problems, and the permeation of public life with Christian ideals." Thus the Y.W.C.A. takes care of the spiritual side of college life, as the Athletic Society looks after the physical.

The Y. W. can and ought to be the most important society in the college. The opportunities which it offers to its members are invaluable, as many of the best leaders and speakers in the country come its way. The social functions of the College, two, are controlled by the Y.W.C.A. and as upperclassmen know, and freshmen will soon learn, the society can be counted on to give everyone a good time.

Miss Nichol then introduced Miss Carr, who gave a very interesting talk on the University Settlement. The Settlement grew out of a lunch room established by the Alumnae Society, and now owns the largest library for children in Montreal. Miss Carr said she knew that no student could give much time to settlement work, but that anyone who could give a little time would never regret it, as she knew from experience.

After Miss Nichol thanked Miss Carr, tea was served. Miss Eleanor Cox and Miss Lillian McKenzie both pleased the guests with solos, and later with a duet. Dancing followed tea, and continued until the singing of the national anthem and the McGill Yell formerly closed the assemblage; but it was seen by the numbers who remained for another last dance that everyone was loathe to go.

THURSDAY, OCTOBER 9, 1919.

ROOM FOR ACTION HERE

To-day's return from the office of the Registrar shows a total of students registered in the faculties of McGill far in advance of that of any previous year, not excepting the marks set in days before the war. In every way, McGill is plainly going to be a bigger college this year than ever before.

It rests with the students themselves, however, to see that the university they love is a stronger and a better institution—that with the increase in size comes a corresponding advance in the "tone" and consequently the achievements and reputation of McGill. There is no cause for us to feel that there is not any room for improvement in this respect, for although McGill may hold up her head among any group of colleges in the world, and feel that she is not inferior in any respect, there never yet was a large assembly of young men without the danger arising of a rule of the more disorderly elements. Much may be done now, at the beginning of the term, towards providing against such an occurrence, and the great antidote is undoubtedly organization.

"Rooters," well drilled and properly led, are an effective aid to the enjoyment of games and sport-days; undisciplined and without leaders, they are merely ineffectual noise-makers. In the same way a parade of students may be permitted to degenerate into a public nuisance.

In most directions, we are thankful to say, arrangements have already been made with a view to having the acts of that much maligned group, "the student body," planned and directed by properly responsible men. There are still some ways in which improvement might be made and, now emphatically, is the time to look to it.

For example, there should be, we believe, some clear understanding as to the attitude of the present authorities of the university to the "rushing" or conflicts between students of the first and second years, which invariably takes place during the first two weeks of the term. We all know that Corporation has "required" the students to cease all "organized kidnapping," but everyone is quite aware of the fact that clashes have occurred in the past and will occur in the future. Since no effort has been made by the authorities to discover and punish particular offenders, beyond the levying of disciplinary fines, we must assume that they look on these sporadic outbreaks as a more or less necessary evil, for the time, at any rate.

But this state of affairs is not one that is likely to satisfy either side. Who can tell when some rather more serious battle between Sophomores and Freshmen may call for a move by the powers, and force the definition of the, at present, exceedingly shadowy line that divides "organized" from "unorganized" action? It would be far more satisfactory to all concerned if the student body could be permitted to have some say in the matter, and, perhaps, vote "pro" or "con" the continuance of a modified "rush." If the majority of the undergraduates decided against the perpetuation of the old custom, there would be no more to be said.

The offenders would then be disapproved of by everybody and the "rush" would die a natural death. Should the decision be "yes," a meeting might be arranged between representatives of the students and of the authorities, at which the matter might be thoroughly thrashed out and a compromise arrived at.

The present condition of things, in which there is a good deal of unconcealed sympathy for the ones who continue to administer an initiation to their younger brethren, is, we believe, subversive of law and order. There is not enough organization to the actions taken to provide any responsible person "who might be charged with seeing to it that no actually disorderly conduct was indulged in, yet there is enough "McGill" to it all to bring the name of the college into evil repute should anything like serious damage to property or a clash with the police take place.

INTER-FACULTY RUGBY

An inter-faculty rugby schedule has now been drawn up and the first game is not far off. The practices which commence immediately afford an excellent opportunity for men who know the game, to get out on the field and limber up. In view of the fact that those who are with the senior squad will not be permitted to play on any of these teams, anyone who has the knowledge of the game should run a fair chance of "making" one of the line-ups. If you are looking for some real strenuous sport along with your lectures, get out on the gridiron with your classmates and help win the championship for the Faculty to which you belong.

CORPORATION REFERRED TO REGISTRATION

(Continued From Page 1)
from time to time, appear the following:—Mr. Pierre Beaulac, K.C., as Lecturer in Civil Law and Dr. A. S. Lamb as Physical Instructor.

Another item of interest was the statement that the new stadium is to be designated as the "Percival Molson Memorial Stadium" and that the official opening and dedication is to take place on Saturday, October 25th, the date of the Intercollegiate Field and Track Meet.

A number of valuable gifts to the Library were reported from the Library Committee through Dean Lee, among which the following may be enumerated:—274 volumes presented by the Misses McLennan and Francis McLennan in memory of the late William McLennan, principally Canadiana, including some books of early voyages to Canada, and historical pamphlets; 76 volumes of valuable incunabula collected by the late Canon Mussen and presented in his memory by Mrs. T. W. and Miss C. E. Mussen; a great number of classical volumes, including Quintilian and Cicero, presented by Sir William Peterson; a collection of old French law books, about 253 volumes in all, from the Executors of the late G. G. Stuart of Quebec through Mr. Stuart Le Mesurier; 72 volumes of valuable works in Spanish presented by Wm. Gardner.

This committee also reported a resolution which had been passed in connection with the death of the Librarian the late Mr. Charles H. Gould, as follows:—

"The members of the Library Committee at this their first meeting since the death of Mr. Gould wish to record their appreciation of his work and of his character."

"Before he was appointed there was no library that could serve and support the other departments of the University; there were some books, but no part of the library was reasonably complete except English History and Literature. There was no sufficient catalogue, and some of us remember when the Library was kept locked when the academic year was over. How great the change in one man's lifetime! And largely due to the high qualities of that man."

"Mr. Gould won the highest praise for his technical knowledge and skill from his fellow librarians, but remained the most sympathetic helper of all students, whether professors or shy freshmen, and his aims were for true university extension in his field, so that our Library should become the centre of such work in our Province—a flowing spring of quickening to sound learning and to public spirit."

"A scholar, a patriot, a gentleman, these are great words to add of one who was master of his own craft, and they are eminently true of the late Charles H. Gould."

A report from the Conservatorium of Music showed progress in every direction.

Approval was given to the condition under which the McGill Delta Upsilon Memorial Scholarship will be awarded. This will be a Graduate's Scholarship, and has been founded by the Society named to perpetuate the memory of those members of the Society named to perpetuate the memory of those members of the Chapter who gave their lives in the Great War—twenty-two in all. It is expected that this Scholarship will be of the value of from \$1000 to \$1200; the greater part of the capital sum to yield this income has already been subscribed and will be handed over in due course to the University for the purpose intended.

The Chairman welcomed the new members of Corporation who had been duly elected since the last meeting, viz. Col. J. J. Creelman, representing the Graduates in Law; Dr. Alt. Bazin, representing the Graduates in Medicine; Dr. H. Walter and Dr. J. W. A. Hickson, Elective Fellows from the Faculty of Arts; and Prof. H. M. MacKay, Elective Fellow from the Faculty of Applied Science.

Correspondence

The Daily is not responsible for the sentiments of letters published in the correspondence columns. Signed communications from graduates, undergraduates and members of the faculties will be placed in print if they are not of too great length.

Correspondents are requested to observe the unwritten law of the newspaper office—that they write upon ONE side of the paper ONLY.

No communication will be admitted in this column without the name of the writer being attached, not necessarily for PUBLICATION.

SOPHOMORES VS. FRESHMEN

The Editor of the Daily.
Here again we broach on that unpleasant topic the Freshman-Sophomore Rush. It is unpleasant, but some policy must be adopted, the first and second years are not showing as loving a spirit as they might, and they would certainly feel better if they could "have it out" with one another.

It was made quite clear that the rush was forbidden in Saturday's Daily and the ruling against it forbids damage to property and detaining lectures. If these could be done away with, possibly the Authorities might be willing to come to terms and allow a rush, of sorts.

In glancing over the "Toronto Globe" for October 7th I saw that Varsity had adopted the policy that the second year should inform the first year and the authorities as to when the rush would come off.

Would it be possible to effect a compromise with the authorities on somewhat these lines: That the second year should specify to the first year men and the authorities, to within a few days of when the rush would come off. The freshmen could then dress for the occasion and their clothes wouldn't be hurt. The rush might and would have to take place at such an hour as not to interfere with lectures. There would be plenty of time, at lunch and after, about 5 p.m. An evening off would not hurt the average freshman even.

Trusting that the rush may not completely die out.

I remain,
Yours ever,
Pro-rush.

MEETING OF FRESHMEN.

At a meeting of the Freshman year on Wednesday the following officers were elected:—

President—Miss Jean Rayner.
Vice-President—Miss Pratt.
Sec. Treas.—Miss I. Canning.
Rep. Vice-President—Miss Gilday.
Poster Manager—Miss L. Kerr.
Basketball Manager—Miss Russell.
Cheer Leader—Miss S. Slack.
Delta Sigma Rep.—Miss Freedman.
Committee for Delta Sigma play—Misses Foster, Dirkin and Teed.

The estate of Aberbothrie, Scotland, was sold by Japp & Yeaman, solicitors, Ayr, to Mr. Headrick, writer, Glasgow, on behalf of Mr. John Headrick Ross, Crow Road, Jordanhill, for £5,050. The upset price was \$3,500.

DR. GRENFELL GAVE ADDRESSES AT THE HALL

(Continued From Page 1)

cause he felt he should go where, no one else would; where there was opportunity for practical Christianity. Work here was started with one small hospital about forty feet square which had to serve a district over a thousand miles long. The work has greatly grown, and Doctor Grenfell is now negotiating with the Quebec government to secure the establishment and support of several new government hospitals in the extreme north of this Province.

The needs of this section are most pressing at present. The war has greatly diminished the number of available doctors; influenced conditions have put a great tax on the doctors already there. Although the Y. M.C.A. of both Yale and the College of Physicians and Surgeons have each taken over a hospital, there is still need for much more assistance.

Plans are now being perfected for the installation of a nursing unit every fifty miles along the coast.

In spite of the great difficulties, however, great strides have been taken in the development of this district. The trading stations which were formerly run on a competitive basis, have in many cases been re-organized into a co-operative system, securing the fishermen to get more money for their products.

Although the problem of medical care is not completely solved, much has been done in this line. During the summer months, consulting surgeons, dentists, etc. devote some of their time to work in Labrador, restoring sight to light-blinded fishermen, and performing other operations of great value to the natives. Even some of the natives are being trained to help out in medical work among their fellows.

The work in the medical line is too scattered to be attended to by private practice. An organization of hospitals, dressing stations, laboratories, etc. would enable the doctors in the region to work together with better results for themselves and better treatment for the patients.

In interesting the medical students especially in this work, Doctor Grenfell insists that work in this district deepens interest in human life. Where the patients under treatment for tuberculosis, rickets, scrofula, etc., have to be so closely watched, the doctor comes to have a personal interest in each case. In this connection the spiritual side of the work comes in. The fishermen need kind words and encouragement, just as much as they need pills. This applies not only to work in the north. The influence of Christ in the world to-day can be greatly extended through the work of Christian doctors among all classes, but chiefly among the lower classes.

Along missionary lines, an industrial department has been established to help the native fishermen tide themselves over hard winters. Arrangements have been made with two of the big American chain-store systems to take all the work which is one during the winter months. Two homes have been erected for the care of children whose parents are unable to bring them up; the more intelligent of these children are trained to become nurses and assistants in the posts.

A lady is urgently needed to take charge of a school of this nature, and to help in the education of these children, many of whom are very intelligent, and will in time become of great assistance to the doctors and missionaries in the Labrador and Newfoundland, and to give them practical instruction in swimming, etc., which is sure to be of value to them when they return to their homes.

In conclusion Dr. Grenfell remarked that anyone intending to take up this line of work must have faith. The ideal underlying the work is that underlying the sacrifice of the men in Flanders. The missionary life is most satisfying, and fulfils the human ideal of sacrifice. The Doctor extends a most hearty invitation to McGill men to take an interest in this work, and to help out if possible.

Acting Principal Adams conveyed the thanks of the meeting to Dr. Grenfell. He emphasized the importance of the work being done in Labrador and Newfoundland by Doctor Grenfell "who," said he, "is one of the great practical missionaries of the world to-day."

ARTS '22 ELECTION.

At a meeting of Arts '22, held in Room 105 of the Arts Building, at 4 p.m. Tuesday, the following executive was elected for the year 1919-20:—

President—F. O. Peterson.
Vice-Pres.—W. R. Kennedy.
Treasurer—D. M. Anderson.
Secretary—S. D. Pierce.

CHEMICAL SOCIETY

The first meeting of the Chemical Society is to be held to-morrow, Friday, when an address is to be given by Dr. R. F. Rutten on "The organization of the International Union of Pure and Applied Chemistry." During the summer vacation Dr. Rutten attended, as the representative of Canada, a number of important conferences in Europe, which were concerned with international scientific organization. A very interesting address is anticipated.

27th. Mayor Martin has written to the

Governments of Ottawa and Que-

bec urging them to do everything pos-

sible to decorate their public build-

ings in the city, and to-day he re-

ceived favorable replies from both

Governments. The Hon. Mr. Blon-

replied on behalf of the Federal Gov-

ernment, and the Hon. Mr. Gailpaul,

the Minister of Public Works, for the

Provincial Government. Consequently,

all public buildings, such as post

offices, court house and customs houses

will have a gala appearance when the

Prince arrives.

COLLEGE SPORTS AND ATHLETICS

MANY ENTER FOR COMING TRACK MEET

Some Closely Contested Events Are Expected.

ENTRIES CLOSE P.M.

Freshman Entries Exceed Those of Second Year.

When the entry list is closed for the Freshman-Sophomore meet, tonight at six o'clock there will be, in all probability, a larger number of students registered than ever before in the history of the inter-class games. During the past two days the number of entries has been steadily growing, and, with the additions expected today, there will be almost a hundred students entered. There was some misunderstanding as to the proper place in which to register; the entry list may be found at the hall porters desk in the Union, just to the right of the door at the cigar stand. All that is required is that the student entering should sign his name on the list for each event in which he intends to participate.

It now appears as if the games will be more closely contested than was at first expected; the number of Freshmen entered now exceeds that of second year entries, but, as the men from the latter year seem to be better trained the games should be very interesting. The Medical Freshmen have not yet made many entries and it is expected that they will do so today, so as not to be outdone by the sophomores of the same faculty.

The sprints are, as usual, the most popular events and the entries for them have been very numerous. It is expected that there will be several heats in both the one hundred, and two hundred and twenty yard races before the finals can be run off; this will of necessity make the meet much longer, and it will be necessary to start it at 1.45 o'clock. The jumping events have been very popular and it will not be surprising if some of the college records are stretched. The weight events and the long distance races have received some entries during the past few days but they not has popular as the other events and present opportunities for men who have not yet entered.

Yesterday afternoon there was a turnout of about forty men for a practice at the stadium, and the majority of them show that they are in good condition for the games on Saturday. The interest of the spectators was centered around the jumping pit, where some very creditable work was done. Gaudin and Kennedy are both in the high jump and will fight hard to bring the honours to the second year; Foss and Mullen have both been practicing for the same event, and will uphold the honour of the freshmen year. There are several other entries for the high jump, and with all the contestants of about equal ability it is hard to say who will win.

Some interesting competition is also promised in the 440 yard and half mile events. Hamilton and King have both entered in these events, as well as a large number of Freshmen who have yet to show their speed. The sophomores think that they have the meet already won but it would not be surprising if they had miscalculated; it is almost certain that many good men will be found from the large number of first year entries.

It is absolutely necessary that every man, intending to participate in the meet on Saturday, should be medically examined before that time. Any man who has not been examined will not be allowed to enter any event. Dr. Lamb has arranged to examine the track men on Friday evening from 8.15 to 9.15 o'clock and everyone is asked to be in the east wing of the Arts building at that hour.

Admission to the games on Saturday afternoon is free, and it is expected that the whole student body will be present. In addition to students, friends of students will also be admitted.

EXCITING GAMES IN TOURNAMENT

Several Close Games In Yesterday's Tennis Series.

Tennis enthusiasts, who were present at yesterday's tournament series, witnessed some of the most exciting games of the season. The first match was Ramsay vs. Ward. The defeat of Ramsay in straight sets of 6-1 and 6-1 proved the biggest surprise of the day. Ward showed excellent form, and was particularly good in overhead and net work.

Powell vs. Branch was a very close game and for a time the excitement was intense. Both men are star players and came fully up to expectations. Every game was hard fought and the scores were very close; Powell had the edge all through however, and succeeded in winning straight-sets of 7-5 and 7-5.

As was expected Greene easily defeated Hamilton. The score was 6-1 and 6-2. In the Ramsay vs. O'Halloran game Ramsay won the first set easily with a score of 6-2. The second set was harder fought however and Ramsay won only after some close play by the score of 7-5.

Ward won from Belouray in straight sets of 6-2 and 6-0.

One game is yet to be played, that between Powell vs. Bernard, the winner to play Ward.

The Double Tournament has eight entries up to-date. Much interest has been shown in the singles and it is hoped that there will be a large entry list for the Doubles. Students will please notice that the entry list closes Friday night.

MCGILL'S RUGBY RIVALS CRIPPLED

Queen's Quarterback Will Not Play Saturday—Varsity Has New Man.

The McGill rugby team is not the only one that is suffering from injuries to its players, although they have probably been harder hit than either Toronto Varsity or Queen's. The latter have just sustained a severe set-back due to the loss of "Jack" Evans, their best quarterback, who is not expected to be able to play against V. of T. on Saturday owing to an injury to his arm. He is the best player Coach Williams has, and was counted upon to help Queen's in the first game of the season.

Evans formerly played for the Kingston C. I. team, and in 1916 starred for the Queen's University team in the military series against the 207th Battalion fourteen of Ottawa. He is fast and tricky, and is regarded as one of the best quarterbacks in the game.

"Red" McKelvey, the big halfback, is showing his old-time form at the practices, and it is on his punting and ball-carrying ability that the Tricolor are pinning their hopes of victory in the inaugural game of the season at Toronto next Saturday. McKelvey, who is but eighteen years of age, weighs about one hundred pounds, and is a line-plunger of the Smirle Lawson type.

He played his first senior football in 1916 for Queen's University against the 207th Battalion team. The Tricolor had been overwhelmed at Ottawa, and in the return game McKelvey, then only fifteen years of age, replaced Hazlett at centre-half, and by his grand playing helped defeat the military champions by 5 to 2.

Among the veterans who will line up with the locals this season are Ellis, Slinn and McConville. The first mentioned saw service in the 1913-14 and '15 Intercollegiate series, while Slinn played in 1914-15. McConville is a middle wing, and his tackling has been a feature of the workouts this season.

Toronto University did not sustain any injuries more serious than sore limbs in their game on Saturday. The Blue and White indulged in a speedy workout yesterday. Montgomery, who played for the Fifth division team at Whitley Camp, joined the V. of T. squad and made a splendid showing. He is a middle-wing, weight 183 pounds, and is an adept at tackling and line-plunging. His acquisition greatly strengthens the wingline. Coach McEnvy and Manager Ernie Laidlaw of the Argos, who saw Montgomery perform in England, are loud in their praises of his ability.

"Joe" Breen electrified the rail birds with his splendid dodging runs last night. On several occasions he zig-zagged his way through the intermediate team for gains ranging between forty and sixty yards. Pearlman was out again, and tackled in his usual sensational style. He looks like one of the best outside wings seen in a Blue and White uniform in many a year.

AQUATIC GAME DRAWING MANY GOOD PLAYERS

Water Polo Is Popular This Year.

OLD MEN BACK.

Special Meeting of Club Will Be Held On Friday.

Tuesday night a short sharp workout was held at 7.00 p.m. at the Y.M.C.A., and though not many turned out some snappy plays well worked out. Winters turned out for the first time and he and Fisk proved fast and hard shooters. Parsons also is in good form, and may be a valuable aid to McGill this year. Elder is showing great improvement and is now in good condition, and developing a very hard fast shot. Hardley, a former M.A.A.A. intermediate was present and showed that he would be able to hold a position on the intermediate team. He is a very reliable man, sure, steady and persevering.

On Tuesday night at the 5.00 p.m. practice over forty men turned out including about 20 freshmen desirous of learning the rudiments of water polo. Several old men also showed up well. Lashley in goal, also "Curly" Walters. Wiggs was out again for the first time since his operation and made a very good impression. Bastable has made great strides since last year, and may be considered as a possible member of the Senior team, if it is decided to enter one this year.

The senior team will be discussed at a special meeting to be held at 1 p.m. on Friday in the Union. Every man must be out to decide on this important question, as it means much to the College.

Some years back the McGill Senior team, with such players as Hodgson and Frank McGill were able to win everything in their field. Unfortunately Frank McGill is now playing for the M.A.A.A. senior and he, with Logan and Cairns will prove a strong opponent.

However nothing is impossible when such men are enthusiastic, and it is up to every McGill man who has handled a polo ball to get out and help the team along. The following men especially are requested to turn out:—Fisk, Winters, Parsons, Wiggs, Walters, Bastable, Lashley, Lairdley, Elder, Patton, Muller, Foss, Lally, Notman. The work out will be short and snappy so every man out.

Dr. Lamb has consented to coach the team and will be on hand to start work.

The hours for swimming at the Y.M.C.A. for McGill men appear in another column of to-day's edition.

R. V. C. '20 HOLD FIRST MEETING

Decided To Co-operate With Arts Students in Reviving Senior Play.

A meeting of the R.V.C. '20 was held Tuesday in the Common Room of R.V.C. with the retiring president, Miss Moody, in the chair. Miss Moody heartily welcomed the new members—Miss Cameron, Miss Macdonald, Miss Douglas and Miss Macnaughton—to the class before the business of the meeting was discussed. The class placed itself on record as being in favor of co-operating with the Arts students in reviving the Senior play. Various elections then took place:—

President—Miss Margaret Macnaughton.
Vice-President—Miss Gwen Ewing.
Rep. Vice-President—Miss Hazel Davidson.
Sec.-Treas.—Miss Irene Scott.
Basketball Manager—Miss Grace Moody.
Root Leader—Miss Helen Nichol.
Poster Representative—Miss Lucille Roston.

The play to be presented by the Delta Sigma Society on October 15th was then discussed and a committee, composed of Miss Gwen Ewing, Miss Dorothy Mawdsley, Miss Isabel Imrie and Miss Helen Nichol, was appointed to stage manage the seniors share of the entertainment.

The subject of class fees was next brought up, and one dollar was decided upon. The Seniors are asked to pay the secretary as soon as possible. After a vote of thanks had been passed to the retiring president for her efficient leadership of the class during the preceding year, the meeting adjourned.

For committing bigamy, sentence of three months imprisonment was imposed on James McFarlane, Glasgow. Awakened by the cries of her three-months-old daughter on a recent Sunday morning, Margaret Haulin, of Glasgow, observed a large bat springing from the child's cot. The child had been bitten on the nose.

INTER-FACULTY RUGBY ARRANGED

Schedule For Wood Cup—No Class Rugby This Year.

The executive of the Rugby Football Club held a meeting last night in the Union at 8.30 o'clock, the following members being present: Montgomery, Williamson, Seath, Gallery, McFarlane, Keeping and Copeland.

The chief business before the meeting was concerned with the Inter-Faculty Series for the Wood Cup. It is regrettable that, owing to the lack of playing field-space, the inter-class games have to be dispensed with for this year, but every opportunity will be given enthusiastic men to make the faculty teams. Players will observe that the following rules govern the Inter-Faculty Series.

Any man not on the Senior Squad is eligible.

Games must be played according to schedule, or, in case this cannot be done, an hour suitable to the two interested teams will be arranged.

Games must consist of forty minutes actual playing time.

The following hours for practice have been set aside for the several faculties. Science 2 to 3.30 p.m. Wednesday. Arts and Law 2 to 3.30 p.m. Thursday.

Medicine 2 to 3.30 p.m. Wednesday. The following schedule has been drawn up.

Arts and Law play Science October 15th at 2 p.m.

22nd. Mur

Arts and Law play Medicine October 22nd at 2 p.m.

Medicine play Science, October 29th, at 2 p.m.

Respective Class numerals will be granted to men of the winning team, who have played 75 per cent of the actual playing time.

GYM HOURS HAVE BEEN ANNOUNCED

Presentation Of Grounds Ticket Will Secure Season Ticket At "Y."

In view of the fact that McGill is at present without a gymnasium, arrangements have been made with the Central Y.M.C.A., Drummond street, whereby the gymnasium and swimming pool of that institution may be used by McGill students.

It is not necessary to point out that every member of the University should undertake some form of physical exercise. It is only in this way that one may properly fit himself—and keep fit—for his seasonal work. Too many students come up to college and pass through without even seeing the inside of the gym. On the other hand, there are many who enjoy the privileges offered; but in proportion to the total registration the number is small.

At the "Y" there is a first class class swimming pool. If you swim come and enjoy a dip; if not, here you have a chance to learn. Apart from the regular swimming hours several hours have been set aside for those who are interested in water polo. Now is the time to enter the sport and get 1 ntrim for the water polo games.

For those who are not interested in aquatic sports, regular gymnasium classes are scheduled for three nights a week. Three quarters of an hour's snappy gymnastic drill three times a week will go far in keeping up the morale of the student.

These privileges are within the grasp of every student, for on presentation of the University Grounds Ticket at the Y.M.C.A. a special ticket will be issued to students. This ticket must be carried at all times and handed to the locker clerk each time the gymnasium or swimming pool is used.

Pending the publication of the regular time table, the following hours will be reserved for the use of McGill students for voluntary work.

Swimming Pool.

Tuesdays—5 to 7.30 p.m.

Thursdays—5 to 7.30 p.m.

Saturday—10.45 a.m. to 5.30 p.m.

Water Polo.

Tuesdays—5 to 6 p.m.

Wednesdays—7.30 to 8.30 p.m.

Thursdays—5 to 6 p.m.

Saturdays—3 to 4 p.m.

Gymnasium.

Tuesdays—5.15 to 6 p.m.

Thursdays—5.15 to 6 p.m.

Saturdays—9.15 to 6 p.m.

HARRIERS ARE TO HOLD MEET HERE

Club Will Be Re-organized and Plans Prepared.

The Intercollegiate Harrier Meet will take place at McGill early next month. Teams will be sent down from Toronto and Kingston to compete and some of the best distance runners in the country will be seen. The race will be over a distance of from five to six miles.

Owing to the fact that there was no harrier work during the period of the war this club has been disorganized and it will need a great amount of work if the team is to be prepared in time for the meet. Practices will begin shortly and everyone interested will be invited to turn out.

At the meeting of the Track club, to be held on Tuesday evening at 5.45 o'clock, everyone interested in harrier work is asked to attend in order to reorganize the Harrier Club and prepare the programme for the season. The executive of the Athletic Association have already approved of the meet to be held and it now remains for the harriers to get busy and turn out a team that will carry the red and white colours to the front.

Toronto University has already prepared a team for the meet and they are practising daily in the expectation of carrying off the honours. With such active competition McGill harriers cannot afford to delay their plans.

TREMENDOUS EXPANSION OF THE LOW INTEREST

Over Hundred Million Dollars Involved in Projected Deal—Biggest Theatrical.

carefully studied during the war and Expansion of theatrical interests unheard of in American show business, involving over one hundred million dollars, are indicated by the admission by Marcus Loew that his entire institution is undergoing a complete re-organization and he is planning a monster deal which, if consummated, will result in the acquisition of new theatres and complete circuits.

The reason for the enormous expansion and the outpouring of millions is to give Loew a greater purchasing power through greater strength. This added ability to secure entertainment and everything connected with the theatre will enable him to continue to give shows such as he is presenting now without increasing the cost.

Loew explained when questioned that his theatres yield ample financial returns, and are invariably successful because enormous capacity, large buying power, and the combined strength of an already large circuit enables him to keep on giving the shows he does at a very small admission price.

Rumors have been circulated for some time to the effect that Loew was contemplating going into the acquisition of new houses in a manner never before attempted by any manager or group of managers, but according to his admissions the contemplated deal, details of which will be announced in a few days, looms up as the biggest deal in the history of the theatre or business world. Loew is at present building 29 theatres and buying others constantly, acquiring them at the rate of about two a week, yet he says this is only the beginning, and has formed plans to secure theatres by wholesale, making the purchase of but one or two theatres a matter of small moment.

Entire circuits, groups of theatres and millions of dollars worth of property sites are involved in the new expansion.

Mr. Loew also admitted when questioned that the deal involves co-operation with some of the biggest financial interests in America.

Loew at present owns and controls a large number of theatres in the United States and Canada. The past few months have seen enormous expansion and acquisition of new theatres. Almost invariably the theatres he builds or buys become successful financially, and it is said he hasn't a loser on his string.

One deal alone, the purchase of the property at Broadway and 45th St., on which he will erect a theatre and roof garden, with a 16 story office building, will involve \$4,000,000. Several others along similar lines are contemplated.

FINANCIAL REPORT OF STUDENTS' SOCIETY

The following financial report of the Students Society is published, in conjunction with that of the Union, which appeared in yesterday's Daily. The President and Members of the Students' Council of McGill University, Montreal.

Dear Sirs:—
We beg to report that we have audited your accounts for the year ended June 30th, 1919, and we submit herewith a General Revenue and Expenditure Account for the year, with Explanatory Schedules, and Balance Sheet as at June 30th, 1919.
The large increase in the expendi-

ture by the Rugby Club over that of the previous year is due to the fact that a new Dressing Room was constructed at a cost of \$695.00.
The new Tennis Club House and Courts are carried forward from the previous year in the accounts as an asset amounting to \$250.00. \$50.00 of this amount has been charged to the Running Expenses for the year ending June 30th, 1919.
We have seen satisfactory vouchers for the disbursements and have verified the cash on hand and in bank.
Yours faithfully,
GEORGE C. McDONALD & CO.,
Auditors.
